FOR FREELANCERS + SMALL-BUSINESS CLIENTS

Agree before you build.

Turn different expectations into one shared scope.
Answer independently. See the difference. Decide together.

Actual application capture. Fictional participants; booking previews use sample data and do not make reservations.

01 / ANSWER

Think independently.

Private role links. Answers stay hidden until both people submit.

02 / COMPARE

See the difference.

Reveal expectations. Propose, counter-propose and confirm each decision.

03 / AGREE

Keep one clear record.

Confirm the same saved version. Export Markdown or print to PDF.

AI drafts questions.
People make decisions.

Optional Gemini suggestions are reviewed before adding. The curated workflow works without an AI key. AI never approves the scope.
